View from the Upper Deck with New Trex Flooring and New Railing

We very much like the service provider JA Corley AC/Electric/Plumbing. They are expensive. But they are good.

When a Corley AC guy was recently here, he said, "I work all over this mountain. Many homes are at the top of the mountains and look down into the valleys. But you home instead has *PANORAMIC* views!"

BINGO. BINGO! All disturbed by a gratuitously placed fireplace!

And It's ALL About the Wild Turkeys
and the Bears!

Not an unusual sight!
